

Blow Your Mind

Jesse McCartney

I've been watching you
Yeah, baby just what I'm seeing
You've been watching me
Yeah, baby better believe it If you wanna dance
Here's your chance to make a ride
If you want romance
Baby, I'll take you home tonight And oh, oh, oh, oh
I know exactly what you wanna hear
Oh, oh, oh, oh
I'm gonna give it to you Baby girl, it's on tonight
I'ma keep you by my side
Hold you close and do you right
Turn off all the lights and lay back while I blow your mind I can't stop living this life
Let's do it, you and I
'Cause baby I'ma make you mine
Gonna have to take a deep breath when I blow your mind She left me on the floor
Kept me on my knees
She's begging for a little more
Room was hot, the fire burning Never leave me, girl
Show you how to keep it going
I'ma rock your world
Baby, the temperature is growing And oh, oh, oh, oh
She leaned over and whispered in my ear
Oh, oh, oh, oh
I'm gonna give it to you Baby girl, it's on tonight
I'ma keep you by my side
Hold you close and do you right
Turn off all the lights and lay back while I blow your mind I can't stop living this life
Let's do it, you and I
'Cause baby I'ma make you mine
Gonna have to take a deep breath when I blow your mind Come on and let it ride
I feel it in your eyes
So tell me anything you want me
'Cause there's nothing that I wouldn't do Yeah, yeah, baby girl, it's on tonight
And I'ma keep you by my side
Hold you close and do you right
Turn off all the lights and lay back while I blow your mind Baby girl, it's on tonight
And I'ma keep you by my side
Hold you close and do you right

Turn off all the lights and lay back while I blow your mindI can't stop living this life

Let's do it, you and I

'Cause baby I'ma make you mine

Gonna have to take a deep breath when I blow your mindCan't stop living this life

Let's do it, you and I

'Cause baby I'm gonna make you mine

Gonna have to take a deep breath when I blow your mind, ohh, yeah
