

Melodies & Desires

Lykke Li

Follow these instructions
Do exactly as I do
Lean your shoulders forward
Let your hands slide over to my side
Move your body closer
Let your heart meet mine Love is the harmony
Desire is the key
Love is the melody
Now sing it with me Come a little closer
Take a look at me
This light is so obvious
I want you to see Come a little closer
Look me in the eye
Then repeat with me
One more time Love is the harmony
Desire is the key
Love is a symphony
Now play it with me Love is the harmony
Desire is the key
Love is a symphony
Now play it with me You'll be the rhythm and I'll be the beat
You'll be the rhythm and I'll be the beat
Then I'll be the rhythm and you'll be the beat
And love, the shoreline, where you and I meet You'll be the rhythm and I'll be the beat
You'll be the rhythm and I'll be the beat
Then I'll be the rhythm and you'll be the beat
And love, the shoreline, where you and I meet Love is the harmony
Desire is the key
Love is a symphony
Come, sing some with me
