To Know You

Wild Nothing

Look away you paint me in
Sometimes I grow older
funny how the moment comes
closer still to know youSo you gave a quiet life
My own chance at order
I won't toss your way aside
for any corner of the worldThere's no answer to the question We are a mutual possession This is the circle that we live in These are the people that we've been There is no answer to the question We are a mutual possession This is the Circle that we live in These are the people that we've been
