

# I Will Love You

Gin Wigmore

Oh, let me fold  
(Oh wait, lemme do that again... k)  
Oh, let me fold into you  
Feel the weight of your skin  
It'll be the one place to hide  
When nobody can't get it  
Think you like it in my arms  
Don't let your head decide who we are  
I think I've found all I can wish for  
And then some  
I will love you  
I will love you  
Until the blood all leaves these hands  
Don't you let us  
Don't you let us  
Close to an early grave  
Give me a lifetime  
And then 15 more to find the words  
That will explain  
How I need you,  
how I see you  
How you are everything that I have  
You are the fire to my thoughts  
The spark that starts it all  
And with your eyes you can move me to your Worlds that fall apart If  
you die before I do  
I know that heartache  
Will kill me too  
So if I ever live again,  
it will be to find you  
well i can love you  
I will love you  
Until the blood all leaves these hands  
Don't you let us  
Don't you let us  
Close to an early grave  
Give me a lifetime  
And then 15 more to find the words  
That will explain

How I need you,  
how I see you  
How you are everything that I have  
So if you die before I do  
I know that heartache  
Will kill me too  
So if I ever live again  
It will be to find you  
well i will love you  
i will love you  
Until the blood all leaves these hands  
Don't you let us  
Don't you let us  
Close to an early grave  
Give me a lifetime  
And then 15 more to find the words  
That will explain  
How I need you,  
how I see you  
How you are everything that I have  
How I need you,  
how I see you  
How you are everything that I have  
How you are everything that I have
