Your Love

Supergrass

My love is at the window
I know my love is strange though
And when I said I feel low
She told me through the windowWell I know I'm gonna look right through
It's your love I'm gonna find
When I'm down yeah, I look right through
It's your lover comin' byYou walked me through the meadows
We talked until the sun rose
And when I said I need love
You pushed me through the windowWell I know I'm gonna look right through
It's your love I'm gonna find
When I'm down yeah, I look right through
It's your lover comin' byWhen you know what you wanna do
Don't feel you're on your own
Because you're all I see
Well, who knows what you're gonna do?
I feel you may be goneWell I know I'm gonna look right through
It's your love I'm gonna find
When I'm down yeah, I look right through
It's your lover comin' by
