

Your Kind (Speak to Me)

Danger Radio

I saw you standin' in front of me
To some degree, thought I could be
Someone who shows you possibilities
But to wait and see is killin' me You crush me with your stares
I suddenly became so aware, oh
You're not the type of girl I should be with
But I don't care, oh, oh Caught me in sight and now I'm fightin'
But I still keep on tryin' to get to you
Keep breathin', I know you're so deceivin'
But I can't help that I'm so hooked on you Speak to me, wish you could see
You're always on my mind
The things you do on your pursuits
Tryin' to keep a distance in all your kind Speak to me, wish you could see
You're always on my mind
The things you do on your pursuits
Tryin' to keep a distance in all your kind She quickly find the way inside of me
Bring me so close, I can't compete
My nerves are shot from the anxiety
I'm trembling but then it hits me I'm not the type of man to sit and stare
I understand, oh
But I keep gravitatin' to you
It was so unplanned, oh, oh Caught me in sight and now I'm fightin'
But I still keep on tryin' to get to you
Keep breathin', I know you're so deceivin'
But I can't help that I'm so hooked on you Speak to me, wish you could see
You're always on my mind
The things you do on your pursuits
Tryin' to keep a distance in all your kind Speak to me, wish you could see
You're always on my mind
The things you do on your pursuits
Tryin' to keep a distance in all your kind Keep settin' aside
Everything that I was told about you
Can't get you out my mind
I can't seem to find a way
To leave you behind and forget or rewind Speak to me
Speak to me
Speak to me
Speak to me Speak to me, wish you could see
You're always on my mind

The things you do on your pursuits
Tryin' to keep a distance 'cause I know your kind
Speak to me, wish you could see
You're always on my mind
The things you do on your pursuits
Tryin' to keep a distance in all your kind
