

Take Your Time (featuring Corinne Bailey Rae)

Al Green

[Chorus]

Just you take your time, oh
Just you take your time Do you remember when
We used to take our time
You'd write me a letter, baby
And I'd wait for you all night (oh)
Now it seems everyone's
Rushing around including you and I
I wanna take a little time Just to fall in love again
Cause they're telling me [Chorus] When I think about yesterday
Everything was easy
Everything was okay
(Now, now, now)
Now everything is going fast
You're the best thing I ever had
Aw and losing you
Aw it'd make me, make me
That would make me
Feel so bad (hey, hey)
Would you help me saying [Chorus] Sing low and take it slow
I'm inclined to agree
Cause ain't nobody living
Can try to hurry me (can try to hurry me) [Chorus: Repeat x3]
