Waiting For The Rapture

Oasis

I still don't know what I was waiting for
A big love to fall down from the sky
She took my hand and picked me up off the floor
She put an apple in my eye
I said I'm tired
Come, get me off the merry-go-round
I'm wired
Come, feed me and then bringeth me down
She come up to me, I can't remember what she said
'Cause I was in a trance and I forgot it all
Banging on about all that revolution in her head
She make her lover seem so magical
She said I'm tired
Come, get me off the merry-go-round
I'm wired
Well, heaven must have sent ya to save me for the rapture
I'm tired
Come, get me off the merry-go-round
I'm wired
Come, feed me and then bringeth me down
[Incomprehensible] down
