Now You Say

Jah Mason

hey girl
I'm standing here
reminiscing
since you're gone
all the things I'm missing

I am Mason, follow Mason

now you're said that we're through girl
I just can't get over you no
and all the things we've been through yeah
I thought this love was for two

can't believe you're in love with someone else girl (yes I'm in love)
can't believe you leave me here by myself yeah (I didn't wanna leave you)
why you're trying to play with my heart
don't you know love from the start

now you're said that we're through girl
I just can't get over you no
and all the things we've been through oh
I thought this love was for two

don't you love me
why you leave me for someone else
don't you need me
love you really
my love is just for you

now you're said that we're through girl
I just can't get over you oh
and all the things we've been through ah
I thought this love was for two

woo!

can't believe you're in love with someone else girl (yes I'm in love)
can't believe you leave me here by myself yeah (I didn't wanna leave you)
why you're trying to play with my heart girl

don't you know it's love (love from the start)

now you're said that we're through girl
I just can't get over you no
and all the things we've been through girl
I thought this love was for two
