

# Drifting Along

## Jamiroquai

Nowhere to go  
But I'll still be cruising  
I live this life long  
Long long time You know I'm drifting along  
Can't see where I'm going  
I will get to my destination I'm feeling the pressure  
All around me crumble  
But I won't be put down this time I'm shifting along  
Though I sing a sweet song  
We'll murder in the streets where I be livin' I'm closing my eyes  
Don't want to see killin', no  
Gentle giants will roam forever I'm cruising the street  
Wondering who I will meet  
Oh love has got to  
Reign in our world La la la la  
La la la la la la  
I don't know where I am going to  
La la la la  
La la la la la la  
I don't know where I am going to  
Drifting along Drifting along  
Closing up my ears  
To the sound  
I don't want to hear crying
