All That

Changing Faces

You're love is all that
But mine is much better
What what what
You're love is all that
But mine is much better
What what what
You're love is all that
But mine is much better
What what what
You're love is all that
But mine is much better
What what whatMmmmmWhen I first met you
I knew were the one
You brought me so much joy
I finally saw the sun
Where did you get that heart
It's wider then the sea
Now we will never part
Cause you're stuck here with meYour love is all that
You need to know
Your love is all that
I'll tell ya so
Your love is all that
You need to know
Your love is all that
I'll tell ya soOoooooohComfort that you get
I won't find no where else
And you showed me how to love
And most of all my self
Now where did you come from
It had to be the stars
Cause there is no one else
That I'll let in my heartYour love is all that
You need to know
Your love is all that
I'll tell ya so
Your love is all that
You need to know
Your love is all that

I'll tell ya soThere comes a time
When you settle down
And you lookin' for love
There's no one aroundOnce in a lifetime
You'll find true love
And when it feels good
Don't let it go, no noYou're love is all that
But mine is much better
What what what
You're love is all that
But mine is much better
What what what
You're love is all that
But mine is much better
What what what
You're love is all that
But mine is much better
What what whatYour love is all that
You need to know
Your love is all that
I'll tell ya so
Your love is all that
You need to know
Your love is all that
I'll tell ya soYour love is all that
You need to know
Your love is all that
I'll tell ya so
Your love is all that
You need to know
Your love is all that
I'll tell ya soYour love is all that
You need to know
Your love is all that
I'll tell ya so
Your love is all that
You need to know
Your love is all that
I'll tell ya so
