## Boris

Pressure fried the coldest head  
Bent to the side wishing he was dead  
And I would still defend  
I would still defend I give up on it all  
I give up on the greed  
I give up on the ones  
Who give up on me Held up by the poor somewhere  
They're unaware  
But I know we are scared  
If I was to give in  
The fight would soon begin  
So I'll give up on it all  
I'll give up on the greed  
I'll give up on the world  
If they give up on me Sun shines  
Sun shine  
The sun shines  
Sun shine  
Did you give up on it all?  
Did you give up on the greed?  
Did you give up on the world?  
Did you give up on me?
