

# Jeannie

## Good Riddance

Friday night she's not alone  
I wonder who's going to drive her home  
And walk her to the door  
And will she give him a good night kiss  
Monday at school she says hello  
I fight the tears as I watch her go  
She'll never know what she means  
To this lonely boy  
If you'd only take a walk with me  
Just give me some time and you might see  
I could be your hero if you'd let me in  
You can't deny what's in your heart  
And you know i'm trying to be a part  
You can do better than those other boys
