

All I Want is You

Mario Biondi

The way I feel
How can you deny
What we had was right? Our love was real
Why'd you walk away?
Tell me what to say, baby You, all I want is you
All I need is you Don't say goodbye
Please, don't close the door
Break my heart once more
I know I'm just a man
I swallow my pride
Please stay by my side
You, all I want is you
All I need is you
I keep prayin' for your love to save my life, it's you
(It's you) All I want is you
(All I really want is you) All I want is you
(All I really need is you) All I need is you In love we are
In love we are
In love we are
In love we really are, we are
In love we, in love we, in love we really are... dadirida... The words we said
After turned to screams
Shattering our dreams
So I tell you go
It's something I can't do
Can't get over you
You, all I want is you
All I need is you
I keep prayin' for your love to save my life, it's you
(All I really want is you) All I want is you
(All I really want is you) All I want is you
(All I really need is you) All I need is you I keep prayin' for your love to save my life
