

Who Belongs

Figure Four

Tear down the walls you create when you claim
To have open mind
My message is what I believe
In this lifeless world that we now live in How could I keep this
Freedom I have from you?
Salvation, it is yours to embrace I heard the words you said, we don't belong
You try to shove us out of this hardcore scene
It's yours, it is mine, we share the same stage
And I am here to stay Oh, I can see all too clear
Another day I'll be here Now's the time to realize
We are not the enemy
I am not of you but I'm not you
I'm here for you, go I'll be here beside you
