Got To Get Away

Alice Deejay

I've got to get away, I've got to move away
I've got to get away, I've got to move away
I've got to get away, I've got to move away
I've got to get away, I've got to move awayI was afraid I kept my feelings inside, we shared our love
And the thing but in the end you took a ride
You didn't come back to me, I shut my tears along
It crushed my heart 'cause you are never coming homeEmotions swept away to nothing at all
Those were the days that I was losing control
You got me burning it will never get the same
You just let me standing in the rainI've got to get away, I've got to move away
I've got to get away, I've got to move away
I've got to get away, I've got to move away
I've got to get away, I've got to move away
I've got to get away, I've got to move awayEmotions swept away, I'm losing control
You've got me burning up, I've got to let you go
Emotions swept away, I'm losing control
You've got me burning up, I've got to let you goI've got to get away, I've got to move away
I've got to get away, I've got to move away
I've got to get away, I've got to move away
I've got to get away, I've got to move away
I've got to get away, I've got to move away
