

Aquarius

[Tinashe](#)

Simmer down, know you're angry
I can make, make it okay
I can tell, I'ma be your baby
Feel your stress melting away somehow
These hoes you know won't hold you down
Getting so hard to see the lights Lights, lights low, low, low
Grind, grind, grind slow, slow
Mind, mind, mind numb, numb, numb
I'll, I'll, I've come, come Aquarius I remember being back in the woods
Everything is gonna change In a world full of darkness
I've become your midnight sun
Wanna change, the first step is the hardest
A brand new age has finally begun right now
This life right here won't hold me down
Getting so hard to see the stars Stars, are blind, blind, blind
The government, the media, the forums blind, blind
And my mind, mind, mind numb, numb, numb
Times, times, times come, come Aquarius The age of Aquarius
The dawn of a new era Aquarius (Aquarius, Aquarius, Aquarius)
(Aquarius, Aquarius, Aquarius)
Welcome to my world
