Firestarter

KDrew

I close my eyes at night and hope that I would dream
To get me out this place and on to better things
Because I tried so hard and got so far to let this slip away
And I refuse to let someone put out my flame.You gotta try much harder.
Hold me underwater.
And you can make it darker.
Cause I will burn it all up.
Cause I'm a fire starter.I close my eyes at night and hope that I would dream
To get me out this place and on to better things
Because I tried so hard and got so far to let this slip away
And I refuse to let someone put out my flame.You gotta try much harder.
Hold me underwater.
And you can make it darker.
Cause I will burn it all up.
Cause Ima.
bring the freaking beat back.
