

# Too Young To Love

## The Big Pink

Once, now and then and never again  
Once, now and then and never again  
All night we turn and turn  
It makes sense to turn again  
All night we turn and turn  
Innocence, too young to love  
AloneOnce, now and then and never again [x4]  
BreakOnce, now and then and never again  
Once, now and then and never againAll night we turn and turn  
It makes sense to turn again  
All night we turn and turn  
Innocence, too young to love  
AloneAlone alone alone  
And you're too young to love  
And you're too young to loveOnce, now and then and never again  
Once, now and then and never againAll night we turn and turn  
It makes sense to turn again  
All night we turn and turn  
In a sense too young to love  
Alone
