

Big and Strong

Olivia Newton-John

Strong man strangles universe, he drowns the stars
Blinded by the mission of a thousand wars
He's fit and dominant, no wonder why
He loves the battle cry Strong man is survivor, he lives to pound
Little wooden crosses in the bloody ground
He's fit and dominant, his will is truth
His hand is absolute And the world keeps on turning
And the sun keeps on burning
And the children keep learning
How to grow up big and strong
How to grow up big and strong Big and strong Strong man takes no prisoner, favors no plea
He leaves no gold in teeth of enemy
He's fit and dominant, rises above
He has no word that means love And the world keeps on turning
And the sun keeps on burning
And the children keep learning
How to grow up big and strong
How to grow up big and strong And the world keeps on turning
And the sun keeps on burning
And the children keep learning
How to grow up big and strong
How to grow up big and strong
How to grow up big and strong How to grow up, world keeps on turning
How to grow up, sun keeps on burning
How to grow up, children keep learning
How to grow up How to grow up, world keeps on turning
How to grow up, sun keeps on burning
How to grow up, children keep learning
