End Transmission

Sydney

It's universal down on this planet we won't ever leave
Did you know I really hate to say this, but you and I
I never thought we'd make it
This galaxy it spins in motion motionless to me
Did you know I really hate to say this, but you and I
I never thought we'd make it
Just sky let the sky fold and fall into quiet sleep
Just let the sky take hold of us
We're so close but you're shaking far too much
Just let the sky take hold of us
We're so close but you're shaking far too much
Just let the sky take hold of us
We're so close but you're shaking far too much
Just let the sky take hold of us
We're so close but you're shaking far too much
You're shaking far too muchAnd it's gone
Yes, it's over
And the moment again passed us by
As the sun it takes over one more night that we live and let die
So long farewell I'll take it as a compliment and I'll hope to break it
I know you're really suffering, but that's the way I had to make it
So long farewell I'll take it as a compliment and I'll promise to break it
I know you're really suffering, but that's the way I had to make it
So long farewell I'll take it as it comes
I'll take it as it comes
And that's the way I hope to take itJust let her die one more time
Let her die one more time
Turn it up one more timeWell then if that's the case just turn around just turn around
I cannot handle this I'll drown it out I'll drown it out
And for the sake of us just kill the sound just kill the sound
Why I have to you
Well then if that's the case just turn around just turn around
I cannot handle this I'll drown it out I'll drown it out
And for the sake of us just kill the sound just kill the sound
Why I have toI'm not gonna try to be catchy or cliche
Or write about what I haven't actually encountered in my life
I just wanna know what the fuck I'm singing about
And honestly, isn't everyone sick of people who think TV is reality?
Because sometimes I feel like I'm living in a never ending episode of Dawson's Creek

"But oh, Scott, the kids deal with real life issues!"
Fuck that!
The truth is, we're just a bunch of 20 year old kids who really like music
We play what we like and feel sorry for those to serene, who think we are ruining music
The death cab is waiting outside
Music isn't a competition, its a compilation of ideas
One bands success surely does not mean ones failure
Fighting should be left for those with bombs big enough to end it
And the last time I checked, I never wrote a bomb
Or have I?
Just ignore those around you
So sit outside your petty bullshit
Just be cool!
Cause some day this will all be over and you will be alone
And being alone doesn't look that cool.
The End!So now I got five more tries just to make things right
I shouldn't settle for less but I think I might
So just drive away though i wish you'd stay
I know it's easy for you but I'm just not the sameSo now I got four more tries just to make things right
I shouldn't settle for less but I think I might
So just drive away though i wish you'd stay
I know it's easy for you but I'm just not the sameSo now I got three more tries just to make things right
I shouldn't settle for less but I think I might
So just drive away though i wish you'd stay
I know it's easy for you but I'm just not the sameSo now I got two more tries just to make things right
I shouldn't settle for less but I think I might
So just drive away though i wish you'd stay
I know it's easy for you but I'm just not the sameSo now I got one more try just to make things right
I shouldn't settle for less but I think I might
So just drive away though i wish you'd stay
I know it's easy for you but I'm just not the same
