

# Make a Lil' Love

[Shwayze](#)

Advisory - the following lyrics contain explicit language:

Turn out the light. Lock the door  
We can make a little love, then make a little more  
And tonight, baby Im yours  
We can make a little love, then make a little more Little miss, can I steal the kiss  
And put it in a bottle with a lemon twist  
Pop the cap, and sip it slow  
It goes a little something like this I wanna see your glow  
Dont wanna leave tomorrow  
You blew in like the wind in Chicago  
Sippin on silver shots of Milagro  
Guess what Los Angeles dove  
Thinkin bout your body got the kid all messed up  
Fessed up to the crime of this love  
I just wouldnt feel right if I left ya  
I wish I knew how to say, I really want you to stay Turn out the light, lock the door  
We can make a little love, then make a little more  
And tonight, baby Im yours  
We can make a little love, lets make a little love Yeah, uh  
Click, click take a picture of it  
You and I like a mixture of it  
Sex and love, put it in a cup  
And when I drink, I drink to get drunk  
Lights out, whod I think I was?  
Peach fuzz, Im a sucker like a leech cause  
Beg you the keys like Alicia  
You my modern day Mona Lisa  
I wanna hug ya, I wanna squeeze ya  
Keep you up all night like the beasta  
And when I leave ya, I wanna need ya  
I wanna feel ya in my bones like fever  
One hundred and three degrees of heat  
Got my heart skippin beats when I see ya

Walkin down the street, walkin down the street  
Turn out the light, lock the door  
We can make a little love, then make a little more  
And tonight, baby Im yours  
We can make a little love, then make a little more  
Make a little love (repeat 7 more times)  
Lets make love when  
its pourin outside  
Lets make love when its war outside  
Lets make love just because  
The people of the world dont make enough of it  
And when this song is on bump it  
Leap for love like you long jumpin  
Keep it up cause we all strugglin  
All you need is  
Turn out the light, lock the door  
We can make a little love, then make a little more  
And tonight, baby Im yours  
We can make a little love  
Turn out the light, lock the door  
We can make a little love, then make a little more  
And tonight, baby Im yours  
We can make a little love, then make a little more
