You Are The One

A Place to Bury Strangers

Feeling loose, walk and talk, moving fast, I take it all
...fall, is that enough, so I move on, life is rough
I wanna be, in the sky, I wanna be, riding high
Speeding cars, the tearing wind, the burning speed, it breaks my skin
I turn it back, a ...sky, moving fast, I wanna die
I feel the wind, breathe the air, driving fast, I still don't care
I start to fall, I loose control, I try to turn, I start to roll
I can't hold on, moving so fast
I wish I had the chance to do it all again
Believe me you are the one, but I was riding away
I kinda followed the sunIt felt so pure inside when you took my life
Faster than the engine could ever rideYou are the oneI feel the wind, I feel the rain, follow the road, into the lake
... have it all, I count on, I'm gonna fall
It disappears into the sky, I'm on road, about to die
I break my face, I break my life,
I wish I had the chance to do it all again
And you could be the one, but I was riding away
I kinda followed the sun
And it feels so good inside, when you took my life
Faster than an engine could ever ride,
You are the one
