

Loaded

Seal

Oh little girl
What have we done
One of us came undone
Which one
Lost in the moment
My despair
Maybe we just don't care
I care
Put it on me
But maybe not this much
It happened with just one touch
The devil in you I trust
Callin' on your face
I know it's true
Every time you look at me
This is not a place for me and you
Every time you look at me
Livin' in a dream and I wake up
Wonderin' where I'm goin' to
But it's true
When I do
I see you
Loaded like a gun
Oh little girl
Where will we go
One of us got to know
I know I told you so
You let me feel the place I might regret
Hearin' you call my name
Tomorrow lies in pain
Far away
Callin' on your face
I know it's true
Every time you look at me
This is not a place for me and you
Every time you look at me

Livin' in a dream and I wake up
Wonderin' where I'm goin' to

But it's true
When I do
I see you
Loaded like a gun
Every time you look at me
Call a number
(Loaded like a gun)
Make me weak
(Loaded like a gun)
You're the crumble
(Loaded like a gun)
Escape the beat
(Loaded like a gun)
How I must feel when
(Loaded like a gun)
From alone in
(Loaded like a gun)
No we're not and bringin' you if you are the only one
(Loaded like a gun)
I can feel you almost there and it's plain to see you go down so easily
I want you to look at me
Callin' on your face
I know it's true
Every time you look at me
This is not a place for me and you
Every time you look at me
Livin' in a dream and I wake up
Wonderin' where I'm goin' to
But it's true
When I do
I see you
Loaded like a gun
Every time you look at me
Every time you look at me
