

Drive Me Crazy

[Kip Moore](#)

She was pretty, 'bout 17 When she moved in just down my street Still don't know what she saw in me I guess she liked the way I made her laugh She wanted more than what friends have She kissed me once and we never looked back (Chorus:) First time was down by the river Our sweat made both us shiver Don't stop, darlin' they're just rain drops The moonlight was all around Our breath, the only sound Baby, Darlin' she said take me And drive me crazy (End chorus) In the woods in my grandpa's barn In the back seat of my car She said, it doesn't matter where we are She made me thirst for a woman's love I kept drinking, couldn't get enough Yeah, there was magic in her velvet touch (Repeat Chorus) The leaves changed and the sky turned grey Her daddy's job took her away I can still see the tears rolling down her face Oh, yeah (Repeat Chorus) Baby, drive me crazy
