

# Fade

## This Wild Life

Swear I could leave you if I tried  
I said I'm leaving and I might, but you stay as I fade  
I only want you late at night, to lose my mind between your thighs  
It's ok if I fadeBut don't mistake physical affection for emotional connection  
God you know I miss it, but girl you know I'm distant  
Never meant to fuck with your headI fade, I fade away  
Try to change, but I stay the same  
If I'm a mess when you get back  
It's cause I drank all that I had  
Would you stay as I fade?  
I needed someone here to hold  
To save me from a night so cold  
It's ok if I fadeBut don't mistake physical affection for emotional connection  
God you know I miss it, but girl you know I'm distant  
Never meant to fuck with your headI fade, I fade away  
Try to change, but I stay the sameI'm trying to let you go  
I fade, I fade away  
Try to change, but I stay the sameBut don't mistake physical affection for emotional connection  
God you know I miss it, but girl you know I'm distant  
Never meant to fuck with your head
