Changed My Life

Baby Bash

I changed my life so I can be with you
But you turned and walked away
Tell me what to do?
I changed my life so I can be with you
But you turned and walked away
Tell me what to do?
Somehow I know you still believe
Somehow I know you still believe
You interrupted my bliss
Fuck this, I'm sorry
Used to be steak an' fish calamari
But now all you do is drink and party
Girl, you ain't the greatest, the greatest was Ali
In the words of the late great Bob Marley
No woman no cry, yes sir I do believe
I count my blessin' every time I see my loved ones
Wonderin' why I be stressin' of a silly woman
Boy get your head straight, boy get your head right
Keep on buzzin' with your cousin
Boy have a good time
Sometime I know it's right, sometimes I know it's wrong
Sometimes I do it big, sometimes I'm all alone
I changed my life so I can be with you
But you turned and walked away
Tell me what to do?
I changed my life so I can be with you
But you turned and walked away
Tell me what to do?
Somehow I know you still believe
Somehow I know you still believe
Up and down like a seesaw
Baby, let me free fall
Me fall for that again
Don't make me hee haw
Never will I get caught up again
I'm a put that on my momma and my next of kin
They say money can't buy me happiness
But it will brighten my day
(Brighten my day)

They say money can't buy me happiness
But it will brighten my day
(Brighten my day)
Baby girl, you don't do it
Girl, I ain't with it
Only problem in my life was you
So good riddance
I'm out the door quick, feet first sideway
I'm checkin' out, baby
And breathin' some highway
I changed my life so I can be with you
But you turned and walked away
Tell me what to do?
I changed my life so I can be with you
But you turned and walked away
Tell me what to do?
Somehow I know you still believe
Somehow I know you still believe
Money won't buy you happiness
But it will brighten your day
Money won't buy you happiness
But it will brighten your day
