I Like It

Stacye Branche

I Like It

Verse
Never thought Iâ€™d et you back through my door
I didnâ€™t think things could be
different than they were before
This time around you give yourself to me completely
Itâ€™s like a whole new man is here loving me

Oh baby when your here with me
Feels so good when when
I like what You do to me
take me there constantly

Chorus
I like it
The way that Iâ€™m feeling
When you love me so sweetly

Verse
When Iâ€™m lying wanting needing next to you
Sleep is something that I just can not do
Let us repeat it again and again
All through the night
what weâ€™ve already gotten right

Bridge
Just one more time
Your body next to mine
All want is you
Your all I want to do

Verse
When I feel your touch
Iâ€™m wanting you so much
I thoughtIâ€™d been in love before
but this time it seems like so much more
the love Iâ€™d wish could be is now shared between you and me
