Inside

Emf

Hushed up, touched up
I see myself and all I've fucked up
I've been sold a million times
It's just as well
I can take three thousand times
Fine
They get at you inside you
You're always hiding inside you
Got far looked hard
I've seen myself and all I've messed up
I've been told a million times
It's just as well
I can see as the signs go by
Fine
To get at you inside you
You're always hiding inside you
And I've lost all reason
I've got nothing to believe in
And it hurts to see you
You're always hiding inside you
Always hiding inside

I've seen you I've seen you
I've been with you I've lived with you
I saw emotions pass away
Left us with nothing to say
Shame
To get at you inside you
You're always hiding inside you
And I've lost all reason
I've got nothing to believe in
And it hurts to see you
You're always hiding inside you
Always hiding inside
And I've lost all reason
I've got nothing to believe in
And it hurts to see you
You're always hiding inside you
You're always hiding inside you

You're always hiding inside you
Always hiding inside
