Dominoes Fall

Neurosis

hey wait for me(tim's voice)....
Hey ho, let the bombs blow, let the dominoes fall I ain't got control
Hey ho, let the bombs blow, let the dominoes fall I ain't got control
no no no no no no nawh nawh nawh I ain't got control
no no no no no no nawh nawh nawh I ain't got control
No control the destiny, wake me up to reality
I can just see anarchy and there ain't no telling whose in charge here
(Chorus)
Dead men they tell no tale

So they finally broke out of hell
And everybody's got something to sell
But there ain't no good I can see here
(Chorus)
People going crazy, situation code red, and the whole worlds outta control,
The walls and the fences are being torn down
And the bodies of the murdered getting cold
Wild dogs going, man they smell the blood
And the old is the weakest of the pack
Nothing is the way that it seems around here
It's very clear it's a very deadly trap
(Chorus)
