

# In the Bubble With a Bullet

## Beady Eye

Waking up in dreamland  
Rolling out the bed  
Can't take anymore,  
If I had any left Mindless conversation,  
There's nothing just quite like  
First thing in the morning,  
'Bout what we did last night Well we was looking for trouble,  
In our bubble, me and you  
Burning up on re-entry,  
Where you send me  
I'm bulletproof  
Do what we wanna do You make a contribution,  
To where your supposed to be  
If its not you,  
Then its not me We was looking for trouble,  
In our bubble, me and you  
Burning up on re-entry,  
Where you send me  
I'm bulletproof  
I'm bulletproof  
Do what we wanna do We do what we want
