

Head Injury

Soundgarden

Head injury, head injury, head injury
You got a kiss for me, it hits me hard
My hands on my head, your words are like arrows
My hands on my head, there's permanent damage
Head injury, head injury, head injury

You got a kiss for me, it's sweet and frail
You got a fist for me, sure to impale
My hand on my head, your words are like arrows
My hand on my head, my mind in shambles
Head injury
