

# All Night

## Juicy J, Wiz Khalifa & TM88

6AM. Las Vegas

In a suite, yeah, I got bitches on the way  
Mix the weed with the drank and let's have a good night  
Mix the xan with codeine and she about to take flight  
And she on ecstasy so she fucking all night  
All night, yeah she fucking all night  
I like to mix it all up  
Cause nigga I don't give a fuck  
I be so dosed, smoking that dope ain't no telling what's in my cup  
You ain't putting nothing on nothing my nigga so you should Just shut the fuck up  
You ain't been rolling nothing, I'm trying to stuff 7 grams up in my blunt  
My back wood like a bat, gotta roll it off a flat  
She started off on her knees she gonna end up on her back  
She mixing the xan with the purp  
Noddin' off look like she breaking her neck  
I gotta treat that ass like a lateral she steady throwing it back  
Mixing the kush with the purp that's how you smoke when you rich  
I drop a bean in the lean that's how you get high as shit  
Mixing the dark with the white and bubbly we gon just call it a twist  
I'm a just pass that bitch to my lil bro we gonna call that an assist  
Mix the weed with the drank and let's have a good night  
Mix the xan with codeine and she about to take flight  
And she on ecstasy so she fucking all night  
All night, yeah she fucking all night  
I like to party all night  
Fuck a bitch black or she white  
Older bitch might be from Canada  
Give me her cheese like a manager  
Her nigga a lame he can't handle her  
She gave me brain on the camera  
Smoke weed but got stamina  
Gin turn me into an animal  
Don't Snapchat me that pussy I want it for real  
She claim that she ain't fucking but she know the deal  
Got bars like jail  
Got pounds on a scale  
Fuck a broad and don't tell  
She only get taco bell  
Niggas buying they own coffin they just need the nail

I turn on the TV and watch the KK sail  
Wake up in the morning and roll me some joints put them all in the air  
Just pour me up some drinks I'm about to  
Mix the weed with the drank and let's have a good night  
Mix the xan with codeine and she about to take flight  
And she on ecstasy so she fucking all night  
All night, yeah she fucking all night  
You got that xan and lean she gon' fuck you on sight  
When she wake up from her I'm a give her all pipe  
And that pussy ain't that good that shit was just alright  
Had to call my homie and tell him that it just all hype  
And that bitches gave me dome and it took all night  
And that sloppy ain't toppe she didn't hold the balls right  
She just wanna do drugs and smoke my weed up all night  
So I kicked that bitch out and told her bust a hard right  
See she a cutie with a booty but she don't know what she doin'  
So I had to stop her tell that bitch to keep it movin'  
Money right in front of her but she don't know what she viewin'  
Put a milli in her mouth but she don't know what she chewin'  
Mix the weed with the drank and let's have a good night  
Mix the xan with codeine and she about to take flight  
And she on ecstasy so she fucking all night  
All night, yeah she fucking all night
