

More Than You Are

Grinspoon

Were you neurotic as a child?
Did they come around and watch your style?
Did you have plans to be a star?
Did you have plans to become more than you are? Maybe rock was in your dreams
Maybe being there was far too obscene
Swing it high and swing it low
Swing it anytime where you wanna go More than you are
More than you are
More than you are now
I'm more than you are
More than you are
More than you are now Yeah, alright, yeah
Yeah, yeah, alright Were you neurotic as a child?
Did they come around and watch your style?
Did you have plans to be a star?
Did you have plans to become more than you are? More than you are
More than you are
More than you are now
I'm more than you are
More than you are
More than you are now
