Fools Like Me

Josh Kelley

I'm a kid with a reputation
Of playing hard in every possible direction
She's a girl you don't refuse
She gives a kinda love you never wanna lose
And I, I'm running round in circles
My little lady she keeps me on my toes
And I got to got to tell ya now
Fools like me need someone like you
To keep me from doin' the things I do
Fools like me needs someone like you
To keep it all together
Just keep it all together
Let's keep it together now
I tried and tried to resist your temptation
I pretended not to hear you conversation
But there you were in your purple velvet shoes
Painting visions of a world I never knew
And now we're dance around in circles

And you don't mind me stepping on your toes
And I got to, got to tell you now
Fools like me need someone like you
To keep me from doin' the thing that I do
Fools like me need someone like you
To keep it all together
Just keep it together
Let's keep it together now
You've gotta help me
Oh, help me keep it all together now
Fools like me need someone like you
To keep me from doing the things I do
Fools like me need someone like you
To keep it all together
Just keep it all together
Keep it, keep it, keep it all together right now
