## La La Love

## **Jamelia**

Tie all our memories on a string I see them disperse in the wind I thought I was so clear back then bout how much you meant meant everythingWhat makes three words so hard to say what difference does admitting make you walked and yet I could not speak I wonder why, cause baby IChorus: La la love you now with all my heart that's all I've ever done la la love you like I never before loved another man and I should have said instead I'm here telling the moon I la la love you la la laI know the hurt and anger make you play down the way we were like you're talking to a stranger but it breaks my heart it breaks my heart'Cause by God I swear my love went nowhere it was always here It's just I never told ya but I failed to show what you should have known, that IChorusBy God I swear my love went nowhere it was always here It's just I never told ya but I failed to show what you should have known, IChorus x 2
