

I See Red

X

She wore blue, her bad luck blue shoes
He wore green for go they went out any way
She and their car wore black through the red light
"Stop I forgot all my memories" I see red when I see you
Fan belts break at 3 a.m.
I get mad, drinks get spilled
At 5 past 2, I don't feel sad
But then I see you and I see red I can't look down or I might fall on you
I might follow in your footsteps
I see a showdown at sundown what's the lowdown?
I had to hunt, I had to hunt you up I see red when I see you
Fan belts break at 3 a.m.
I get mad, drinks get spilled
At 5 past 2, I don't feel sad
But then I see you and I see red He sees the sun come up and she needs rest
Here comes a creepin' so close to the bed
"Good morning darkness I see your shining face"
She's always thinking about the facts of life I see red when I see you
Fan belts break at 3 a.m.
I get mad, drinks get spilled
At 5 past 2, I don't feel sad
But then I see you and I see red
