

Mason Dixon

Curb Jaw

I'll take your picture and hold it in my mind
take another and have you all the time
and as I'm leaving the distance magnifies
close my eyes and find you inside my way up downtown
superstitious
mason dixon line like rain on the windshield
I'm moving through the night
roaming the time zones
filmed in black and white
you're here in my headphones
each and every mile
falling asleep with the lights on all night "I'm way up downtown"
superstitious
mason dixon line "I'm way up downtown"
superstitious
mason dixon line he's not on time, he's always on time
turning the deadbolt, stars turn into light
holding his hand she'll finally sleep now "I'm way up downtown"
superstitious
mason dixon line "I'm way up downtown"
superstitious
mason dixon line
