

# Put It on the Dancefloor

## The Twang

I say can and you say not  
Turning back now I've found your hot spot  
This time's as good as any  
What you waiting for? Shake your conscience no regret  
You start to tingle as you break your first sweat  
This time's as good as any  
What you waiting for? I could be a part of you  
You could be a part of me  
There'll be no strings attached  
If there are we'll cut 'em free Coming up like the sun  
We'll all be as one  
So give it all you got  
And put it on the dance floor You're my slave, I'll pick the lock  
What I need is what I think you got  
This time's as good as any  
What you waiting for? Leave the rest, let's shake 'em off  
This one's gonna blow your socks off  
This time's as good as any  
What you waiting for? I could be a part of you  
You could be a part of me  
There'll be no strings attached  
If there are we'll cut 'em free Coming up like the sun  
We'll all be as one  
So give it all you got  
And put it on the dance floor Generation of mine  
Generations all of you  
We ain't got no time for crying  
Ignore the past it will soon be part of you Coming up like the sun  
We'll all be as one  
So give it all you got
