

# Keep the Faith

## Black Oak Arkansas

When troubles got you down  
And sorrow's all around  
If you think your loves all been in vain  
Just cry to end the pain Please keep the faith, we need it You look for a way out  
Of this sea of doubt  
It looks hard I understand  
Swimmin' when you can't see land Please keep the faith, we need it You need to see the country  
But something holds you back  
Travel near, far, and wide  
Have no fear or nothing to hide Please keep the faith, we need it If your tired of the human race  
And you can't find yourself in pace  
There's too many games goin' round  
And the Man's tryin' to bring you down Please keep the faith, we need it
