

History

Olly Murs

All eyes on is like sunrise waiting on the day we brave
Don't you want them all to remember our names?
Talking about our love and the trails we place
Cuz the only think that the world can't change
Is you and I
Something in your eyes, something in your eyes
Telling me we're running out of time, running out of time,
Baby if we only got tonight, only got tonight
Can you just stay with me?
Light it up the sky, light it up the sky
Promise you that we can burn so bright, we can burn so bright
Baby if we only got tonight, only got tonight
We can make history
Why we, don't need to hear ok
Oh we can make mistakes, our way Don't you want then all to remember our names?
Talking about our love and the trails we place
Cuz the only think that the world can't change
Is you and I
Something in your eyes, something in your eyes
Telling me we're running out of time, running out of time,
Baby if we only got tonight, only got tonight
Can you just stay with me?
Light it up the sky, light it up the sky
Promise you that we can burn so bright, we can burn so bright
Baby if we only got tonight, only got tonight
We can make history We don't need anything or anyone
We can rise higher than thee sun
The only thing will ever need is you and me
So baby just stay with me We don't need anything or anyone
We can rise higher than the sun
The only thing will ever need is you and me
We can make history
