History

Olly Murs

All eyes on is like sunrise waiting on the day we brave Don't you want them all to remember our names?

Talking about our love and the trails we place
Cuz the only think that the world can't change
Is you and I

Something in your eyes, something in your eyes
Telling me we're running out of time, running out of time,

Palve if we cally get toright, only get toright

Baby if we only got tonight, only got tonight

Can you just stay with me?

Light it up the sky, light it up the sky

Promise you that we can burn so bright, we can burn so bright

Baby if we only got tonight, only got tonight

We can make history

Why we, don't need to hear ok

Oh we can make mistakes, our wayDon't you want then all to remember our names?

Talking about our love and the trails we place

Cuz the only think that the world can't change

Is you and I

Something in your eyes, something in your eyes
Telling me we're running out of time, running out of time,
Baby if we only got tonight, only got tonight

Can you just stay with me?

Light it up the sky, light it up the sky

Promise you that we can burn so bright, we can burn so bright

Baby if we only got tonight, only got tonight

We can make historyWe don't need anything or anyone

We can rise higher than thee sun

The only thing will ever need is you and me

So baby just stay with meWe don't need anything or anyone

We can rise higher than the sun

The only thing will ever need is you and me

We can make history
