

# Endless Summer

## RollerBlue

Endless summer, endless summer  
Is this the endless summer or the end of summer she said  
Are you the perfect stranger that I can't get out of my head  
Is this the endless love or the end of love this time  
Are you worth a chance or do, I draw a line  
Chorus  
Summer's just a state of mind, no need to draw the line  
Summer always comes around again  
It's like déjà vu and time's running out so fast  
I should have known better I knew this wouldn't last
