

# A Song About Girls

## What's Eating Gilbert

I wrote a song about a girl  
But there's so many cool girls in this world  
I named my song after a girl  
But there's too many pretty names in this world  
So this song's for you and all that life puts you through  
All of the girls in the world who inspire me  
All of the girls living life with no rules  
All of the girls in the world I can't live without  
This is your song [x4] I wrote a song about girls  
Because there's so many of you in the world  
Who take the heats, you take the knocks  
When you're the ones calling all the shots  
So this song's for you and all the things that you do  
All of the girls in the world who inspire me  
All of the girls living life with no rules  
All of the girls in the world I can't live without  
This is your song [x6] So this song's for you and all that life's put you through  
All of the girls in the world who inspire me  
All of the girls living life with no rules  
All of the girls in the world I can't live without  
This is your song [x2] All of the girls in the world who inspire me  
All of the girls living life with no rules  
All of the girls in the world I can't figure out  
This is your song [x6]
