This Is Our Night

Julee Cruise

When all my days are wanting you
When all your days are wanting me
Why can't it ever be?Tonight, tonight is our night
Tonight, tonight is our night
To fall in love so deep in love
Tonight, tonight is our night
Tonight, tonight is our night
We always will remember this one nightThis magic night
When the world will let us be freeWhen all my dreams are seeing you
When all my dreams are seeing you
Why can't it ever be?Tonight, tonight is our night
Tonight, tonight is our night
To fall in love so deep in love
Tonight, tonight is our night
Tonight, tonight is our night
We always will remember this one night
