

Witch Doctor

De Staat

Oh little sicky, seems to be the pain
Got all these herbs don't mean a f***ing thing
I am the little witch, with the magic tricks

Mistrust the white house, come and get your fixIt's not about the numbers, what you feel is real

Crystals, rays of light, the taste of orange peel
Open the mind, change the mind, that's how we achieve
Can't hurry to try right, it's what I believeWitch doctor

Witch doctor
Witch doctor

Witch doctorI taste the green when you come here and complain

I'll give you cleanliness, while I'll make it rain

I'm a corpse eating vulture, who tells you how to feel

Don't trust the white coats, I'll make you a better dealPut a needle in the cheek so turn the other one

Come back tomorrow, because we'll never get it done
Open the mind, change the mind, that's how we achieve
Can't hurry to try right, it's what I believeWitch doctor

Witch doctor
Witch doctor
Witch doctor
