Ride

Ryan Malcolm

Oh, hot summer night, let's go for a ride
Let's leave the city lights behind
Turn the radio on, there's a Sheryl Crow song
And she's soaking up the sun
Shine on, shine on and on
It's time to go for a ride
We'll find the perfect way to carry us away
Let's go for a ride, let's go for a ride
I'm looking at you and I'm loving the view
It's like a California dream come true
Just yesterday we were lost in L.A.
Now, we're soaking up the sun, yeah, yeah
Shine on, shine on and on

It's time to go for a ride
We'll find the perfect way to carry us away
Let's go for a ride, let's go for a ride, let's go for a ride
Yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah
Shine on, shine on and on
Yeah, it's time to go for a ride
We'll find the perfect way to carry us away
Let's go for a ride, let's go for a ride
And it's time to go for a ride
We'll find the perfect way to carry us away
Let's go for a ride, let's go for a ride
