

That's Close Enough for Now

Field Music

That's close enough for now
I'm sure they'll get the point
Why make this difficult
When way back then we'd start again
What brings on all this attention
Something must be up on you
Looks like a baby is crying
Just can't believe how funny you sure can be
That's close enough for now
I'm sure they'll get the point
Why make this difficult
When way back then we'd start again
