

Best Friend

Candlebox

Quiet down now, hush hush my friend
Quiet down now, hush hush my friend
When all the others left, when all the others left
When all the others left, when all the others I knew you'd stick around, come here now
I knew you'd stick around, come here now
When all the others talked, when all the others talked
When all the others talked, when all the others You'd always been my habit now
Colored bees, and stomach aches
Your friends in need, and lovers quakes
My best friend, my, my very best friend My best friend, my, she never left my side
So come here now sit quiet down come here now sit
So lie down now, quiet down friend
Quiet down now, quiet down friend When all the others left, when all the others left
When all the others left, when all the others
I knew you'd stick around, come here now
Come here now sit, so come here now When all the others talked, when all the others talked
When all the others talked, when all the others
You'd always been my habit now
Colored bees and stomach aches Yours friends in need, and lovers quakes
My best friend, my, my very best friend
My best friend, my, she never left my side
So lie down now, quiet down friend Lie down now, lie down now sit
My side so lie down and fight to find
My side so lie down and fight for my
(Quiet down now, hush hush my friend)
My side to lie down be good for my
(Come here now, come here now sit) My side to lie down be good for my
Quiet down now, hush hush my friend
Come here now, come here now sit
When all the others left, I knew you'd stick around
When all the others talked, I knew you'd stick around Lie down now, lie down my friend
Lie down now, hush hush my friend
My best friend, my, my very best friend
My best friend, my, my very best friend
