

# Let Us Be Loving

[Alice Russell](#)

I sat alone and watched TV  
What a feeling can't be changed  
As they say a smile won't catch your eye  
So goodbye, goodbye, goodbye to loving Let us be loving, let us be loving  
Let us be, let us be, let us be  
Let us be, let us be, let us be And the grass out there on the riverside  
It don't have to grow  
Out into this forest wide  
You reap just what you sow Lonely in this jungle deep  
A smile won't catch my eye  
So goodbye, goodbye, goodbye  
Goodbye, goodbye, goodbye  
Goodbye, goodbye, goodbye  
So goodbye, goodbye, goodbye  
Goodbye, goodbye to loving Let us be loving, let us be loving  
Let us be, let us be, let us be, let us be  
Let us be, let us be, let us be  
So goodbye, goodbye, goodbye to loving Keep on keep on keep on  
Keep on keep on keep on  
Keep on keep on keep on  
Loving, loving Keep on keep on keep on  
Keep on keep on keep on  
Keep on keep on keep on  
Loving, loving
